

Trump's Board of Peace sells Gaza to Epstein Class

The Grayzone's Max Blumenthal explains on Judge Andrew Napolitano's Judging Freedom how President Donald Trump's so-called Board of Peace functions as a vehicle for the Epstein Class to financialize Israel's occupation and ethnic cleansing of Gaza, and export the dystopian model to the rest of the world. ||| The Grayzone ||| Find more reporting at <https://thegrayzone.com> Support our original journalism at Patreon: <https://patreon.com/grayzone> Facebook: <https://facebook.com/thegrayzone> Twitter: <https://twitter.com/thegrayzonenews> Instagram: <https://instagram.com/thegrayzonenews> Minds: <https://minds.com/thegrayzone> Mastodon: <https://mastodon.social/@thegrayzone> #TheGrayzone

Who are they? Well, they're the Epstein class. Mark Rowan was essentially in business with Jeffrey Epstein through Apollo Global Management and his colleague Leon Black, who was one of Epstein's closest associates. Mark Rowan was meeting with Jeffrey Epstein up until 2016, according to the latest tranche of emails, discussing business. I mean, there are five meetings described in these emails. So he's a senior member of the Epstein class proposing to financialize the coastline of a de facto death camp. He can't even pronounce Rafah, which is the southern city and one of the most populous in Gaza that was completely wiped off the map by Israel.

And now he's proposing to financialize new housing in Rafah, trying to entice global billionaires to come into Gaza, while they're putting up nowhere near enough cash to rebuild an area destroyed by Israel—damage that's caused tens of billions of dollars in losses. One thing that wasn't mentioned at this so-called "Board of Peace," where they're obviously bored of peace, at the ironically named Institute for Peacebuilding, was that Gaza is currently under attack. Israel has violated the Gaza ceasefire between October and this February over 1,600 times. They've fired at people individually more than 500 times. There have been hundreds of home demolitions inside Gaza. Just yesterday, Israel was blowing up houses in Beit Hanun in the north.

In the north, Israel has been deploying drones to blow up solar power arrays to prevent people from living there, since the electric grid has been cut off by Israeli attacks. So ethnic cleansing, massacres—they're taking place before our eyes—and that's completely irrelevant to this Board of Peace. The Board of Peace is actually proposing another war on Gaza under the banner of international quislings like Morocco, Indonesia, and Kazakhstan—Islamic quislings of the Epstein class who simply want IMF loans or Trump loans. And that's why they're seated there at the table. It

will be an international stabilization force. There's a U.S. colonel named Jasper Jeffries who's seated there describing their plan to send something like 9,000 troops and police trained by Jordan and Egypt, the local vassals, to go in and disarm Gaza—which means another war.

Seated beside Jasper Jeffries is one of the most corrupt men on the planet—named in the Epstein leaks—Tony Blair. What did Tony Blair do? He oversaw the Dayton Plan for neutralizing and pacifying the occupied West Bank after the Second Intifada, using mercenary groups like DynCorp to train Palestinian Authority police, killing many Palestinians in the process. And what's been the result of that? The result of the Dayton Plan is the unprecedented growth of settlements and the consolidation of Israeli occupation areas—de facto annexation through new laws passed in the Knesset this week that basically allow Israel to purchase Areas B and C. That's Tony Blair's legacy.

He's a front man for the UAE. He's a front man for Larry Ellison's Oracle, which is the main funder of his Tony Blair Institute. So it's symbolic that he's seated next to the U.S. military officer who will use the U.S. military to impose this kind of high-tech, biometric, concentration-camp-style occupation on Gaza. Then finally, Jared Kushner presents the PR commercial for the Gaza plan—the “new Gaza.” There's a part dedicated to basically deprogramming the youth of Gaza so they no longer identify as Palestinians, no longer see themselves as refugees, and no longer share the stories of dispossession of their parents and grandparents.

And then they basically just meld into this wider region of Arab slaves to the Epstein class. So this is the vision they're putting forward—but there's just one problem with that vision: the Palestinian resistance, which stood up against the entire world through two years of genocide, is still intact. It's still armed. And as I've said before, this vision sees Gaza as a laboratory for what will be imposed everywhere else. There is protest. There are restive populations. There are people who do not approve of the Epstein class's agenda. The only thing standing between that reality and the rest of us is the Palestinian resistance that's still intact inside the tent camps of Gaza. Wow.
